

Finding a Health Care Provider

If you needed to find a health care provider or clinic, what would you do?

How would you locate a list of possible doctors or clinics?

What type of primary care doctor would you prefer? Training? Gender? Personality? Race or ethnicity? Language spoken?

How would you determine if the doctors or clinics you locate are reputable?

What questions would you ask when contacting the doctor's office or clinic for the first time?

If confidentiality is important to you, what questions would you ask?

What questions would you ask about charges for services?

How would these answers be different if you were looking for a mental health care provider?

How would these answers be different if you were looking for a dental health care provider?
